

Blossom Charm

Make jewelry for your Mom on Mother's Day!

Instructions:

Print the page (or trace the flowers from your tablet or computer screen). Color the flowers with crayons, markers or coloring pencils (see sample below). Very carefully, trim around the oval to create a paper flower charm. Cut an additional blank oval and glue it to the back of the paper charm with a glue stick to add a layer of thickness. If you want, write your name and a small note on the back.

After several charms have been colored, trimmed and glued, use a hole punch to create a hole at the top of the flower. Run a string or ribbon through the holes to make a necklace or bracelet.

Supplies:

Printer
Crayons, markers or color pencils
Scissors
Glue stick
String or Ribbon
Hole Punch
